# WALKER READING TECHNOLOGIES

## What is LiveInk®?

### LiveInk®

is a patented method  
of text presentation  
that has been shown  
to increase  
reading comprehension and  
reduce reading eyestrain.

### LiveInk®

harnesses the power  
of the word  
to make it easier  
to read  
by formatting text  
in a pleasing,  
poetic-prose style.

### Reading research with LiveInk®

has shown  
that LiveInk®  
can more than double  
reading comprehension  
for many readers.

### LiveInk® is especially helpful

when the text  
is very difficult and abstract.

### Additionally,

the LiveInk® presentation method  
has been shown to reduce  
reading eyestrain  
by up to 75 percent.

### LiveInk®

reduces the reader's mental work  
of deciphering  
the text's sentence structure  
and allows the reader

to concentrate more deeply  
on the message itself.

The Classics in LiveInk®  
includes features  
that will further enhance reading:

- Large font options  
(up to 40 point)
- Point-and-click table of contents  
for every Book and Chapter.
- Three background/text color schemes
- Word Search
- BookMarking
- Point-and-click index  
for Cross-Reference Study.
